1 – Background

Belfast City Council's community plan for Belfast will be known as the Belfast Agenda. It will be a joint vision for Belfast 2030, created in partnership with key city partners, residents and community organisations. The plan will set out measurable medium and long-term goals for social, economic and environmental improvements for Belfast over the next 15 years.

After attending one of several "Belfast Conversation" events in May 2015 EBCDA decided to begin an engagement process with local community stakeholders to develop a joint vision for East Belfast – the "East Belfast Agenda" – with the intention of feeding this into the Belfast-wide process.

2 – Participants

Between June 2015 and March 2016 EBCDA facilitated: one half-day workshop for community organisations; two days of follow-up conversation events with community organisations; one half-day workshop with churches and faith-based organisations; and a series of workshops with young people, in partnership with East Belfast Youth Practitioners Forum, called "My East Belfast." In total EBCDA engaged with over **100** people from **42** different organisations.

3 – Process

At each event EBCDA adapted the original "Belfast Conversation" questions to frame them from an East Belfast perspective:

- 3.1 *What's great about East Belfast?*
- 3.2 *What are the challenges facing East Belfast?*
